This edition of the SFPE Handbook of Fire Protection Engineering is dedicated to Philip DiNunno, who was the editor in chief for the first four editions of this handbook. In the mid-1980s, Phil DiNunno, Jack Watts, Doug Walton, Craig Beyler, and Dick Custer had an idea to create a collection of calculation methods for fire protection engineering.

recognition of the importance of fire protection came more knowledge about the subject. Engineers started to accumulate information about fire hazards in building construction and in manufacturing processes, and much of this information became the basis for the early codes and standards. Several chapters in this handbook have a bearing on the
