"This textbook covers all the theory and technology sections that students need to learn in order to pass level 1, 2 and 3 automotive courses from the Institute of Motor Industry, City & Guilds and other exam boards. It has been produced in partnership with ATT Training and is a companion to their online learning resources. Learning is made more enjoyable and effective as the topics in the book are supported with online activities, video footage, assessments and further reading. If you are using ATT Training materials then this is the ideal textbook for your course"--

Featuring case studies from varied settings with strong grounding in real-world decisions, this text illustrates basic concepts while expanding students' understanding of economic, political and cultural concerns that must be interwoven into such key areas as process design, quality and supply chain management.
